

The One Region 2012 Quality of Life Indicators Report was intended to fulfill three purposes:

1. To provide an objective assessment of conditions in ten categories considered to be leading indicators of the quality of life in Northwest Indiana.
2. To identify and evaluate trends in each of these categories during the period from 2000 to 2010.
3. To stimulate dialogue and actions that address opportunities to enhance the quality of life.

FOLLOW UP ENGAGEMENT

Indicator: Environment

Responsible Group: One Region Environmental Action Group

Aspirational Statement: We aspire to be a region that supports stewardship of our unique natural environment, helping to assure the health and well-being of current and future generations.
